

## Carbon Reduction Audit 2026

Supplier name: **Panlogic Ltd**

Publication date: 14th October 2026

This audit report provides a review of Panlogic Ltd's carbon reduction progress and compliance for the year 2025, based on the provided Carbon Reduction Plan and evidence from the Knowledge Base.

Panlogic Ltd: 2026-27 Carbon Reduction Audit

Supplier Name: Panlogic Ltd

Audit Date:\* 10th October 2026

Reporting Period: September 2025 – September 2026

Baseline Year: September 2024 – September 2025

### 1. Executive Summary

Panlogic Ltd remains committed to achieving \*\*Net Zero emissions by 2040. As a digital consultancy operating a 100% work-from-home model, the organisation maintains a minimal carbon footprint. The 2025 audit confirms that Panlogic continues to operate with zero Scope 1 and Scope 2 emissions.

Scope 3 emissions remain the primary focus for reduction, specifically targeting business travel and employee homeworking.

### 2. Emissions Review & Compliance

The following table compares the 2025 performance against the established baseline:

| Emission Category | Baseline (23/24)               | 2025 Audit Status            | Compliance Notes                                      |
|-------------------|--------------------------------|------------------------------|-------------------------------------------------------|
| <b>Scope 1</b>    | 0.00 tCO <sub>2</sub> e        | <b>0.00 tCO<sub>2</sub>e</b> | Compliant: No owned/controlled boilers or vehicles.   |
| <b>Scope 2</b>    | 0.00 tCO <sub>2</sub> e        | <b>0.00 tCO<sub>2</sub>e</b> | Compliant: Remote model eliminates office energy use. |
| <b>Scope 3</b>    | 84.55 kgCO <sub>2</sub> e      | <b>Under Review</b>          | Ongoing monitoring of travel and homeworking.         |
| <b>Total</b>      | <b>84.55 kgCO<sub>2</sub>e</b> | <b>On Track</b>              | Target: 87.52% reduction by FY27/28.                  |

### 3. Review of Carbon Reduction Initiatives

Panlogic has successfully implemented several environmental management measures to maintain its low-emission status:

**Travel Substitution:** The organisation has maintained a 'Travel Substitution' policy, prioritising video conferencing (Skype, MS Teams) over physical meetings. This initiative continues to provide a significant decrease in mileage expenses.

**Sustainable Procurement:** Panlogic continues to prioritise energy-efficient internet service providers and monitors providers who are members of the **\*\*Green Grid\*\*** or EU-funded projects like GreenShift.

**Operational Efficiency:**

Employees are mandated to avoid leaving electronic equipment on standby and are encouraged to use low-energy lighting and Energy Star Rated products in their home offices.

**Waste Management:**

The firm adheres to a "repair, reuse, or recycle" policy for all IT hardware, partnering with social enterprises like Maxitech to redistribute equipment for local training programmes.

#### **4. Future Audit Recommendations**

To further enhance compliance and progress toward the 2040 Net Zero goal, Panlogic aims to:

- Maintain ISO 14001 certification for its environmental management system.
- Increase the use of green transport (rail/hybrid) for the remaining necessary business travel, aiming for 80% 'green' travel.
- Continue providing environmental and safety training to all work-from-home employees.
